

## Office of Training Grants: Grants Library Consent Form

The Office of Training Grants (OTG) has developed a Grants Library in close collaboration with the Clinical Research Training Center (CRTC) and the Institute of Clinical and Translational Sciences (ICTS) to serve as a centralized resource for grant writers/investigators at different career stages to allow access to awarded training, research, and career grant applications as well as other general stock language and proposal templates and tools.

As a successful grant recipient, we kindly request your permission to include a read-only version of your grant in this shared library resource. This will not only help support our office in its mission to advance Washington University's research enterprise but it will also assist current trainees, scholars, new investigators, colleagues and future collaborators to strengthen and improve their own applications.

This site will be available to researchers with an active WUSTL key.
